

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to tell you that I am NOT in favor of the FCC's proposal to ease restrictions on the use of cell phones on passenger planes in flight.

To my knowledge there is no evidence that cell phone use does not interfere with instrumentation. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency.

Not only will cell phones be an additional annoyance in cramped passenger cabins but cell phones easily could be a tool that would enable terrorists to coordinate plans of action.

My family and I ask you leave the current rules in effect. Thank you for taking time to read my email.

Sincerely,

Christopher Giles
